CAREER OBJECTIVE

Full-stack developer with experience in Next.js, React, TypeScript, Node.js, and Java Spring Boot, focused on building AI-native applications powered by agentic workflows. I design scalable frontends and robust backend services while building autonomous AI agents using LangChain and LangGraph for multi-step reasoning, tool invocation, and stateful execution. I've implemented real-time systems with WebSockets, enabling live data synchronization between users, and have worked on contract analysis systems and RAG servers for knowledge retrieval and decision support. I deploy production-ready Agentic AI systems, including MCP-style servers, using CI/CD pipelines, Docker, and cloud platforms.

WORK EXPERIENCE

AI4LEX (Italy) **Remote**
SDE - 2 *March 2025 - Present*

At AI4LEX, I worked as a Full-Stack Developer, building scalable, production-grade applications using Next.js, React, TypeScript, and Java Spring Boot. I developed real-time features using WebSockets to enable live data synchronization across users and built AI-powered modules including RAG pipelines, contract analysis systems, and MCP-style AI servers. I designed and implemented Agentic AI workflows using LangChain and LangGraph, enabling multi-step reasoning, tool orchestration, and stateful execution within applications. Additionally, I contributed to DevOps processes, leveraging Docker and CI/CD pipelines to ensure reliable, efficient deployment and scalable system architecture.

Muzigal (Hyderabad) **Remote**
Full Stack Developer *Dec 2023 - Feb 2025*

At Muzigal, I'm entrusted with developing the UI and seamlessly integrating backend APIs. My responsibilities span crafting intuitive user interfaces while ensuring seamless connectivity with backend systems. Leveraging Node.js, I architect and implement APIs to facilitate smooth communication between front-end and backend, ensuring a cohesive and efficient application experience for users.

Edgroom Pvt Ltd (Vishakapatnam) **Remote**
Full Stack Developer *May 2022 - May 2023*

Developed reusable UI React components for static interfaces, enabling efficient maintenance. Implemented client-side features for API interaction, facilitating dynamic content updates. Utilized Next.js Routing to enhance SEO, improving search engine visibility. Collaborated on optimization, achieving a 30% performance boost through efficient component usage and enhancements.

LEADERSHIP EXPERIENCE

Backend Development Trainer *July 2022 - Dec 2022*

Trained 18 college juniors on backend-development, starting from the basics of Nodejs and Mongodb to using Express and tokens.
Conducted Sessions on Git to raise the awareness about version control systems and collaborative development.

EDUCATIION

Rajiv Gandhi University of Knowledge & Technologies - Srikakulam, A.P *May 2023*

Computer Science/B.Tech (CGPA: 8.0).
Organizations: TechSeminal, Placement-Cell Technical-Team

SKILLS & INTERESTS

Frontend & Mobile: React.js, Next.js (App Router), TypeScript, Tailwind CSS, ShadCN UI, React Native
Backend & APIs: Node.js, Express.js, Java Spring Boot, RESTful API design, Auth & Authorization, File Upload Pipelines
Real-Time & Async Systems: WebSockets, BullMQ, Event-driven Scheduling, Multi-user Data Synchronization
AI Systems: Agentic AI Architectures, LangChain, LangGraph, Chain-of-Thought (CoT) Reasoning, RAG-based Retrieval Systems, MCP-style Tool Servers
Databases & ORMs: SQL, Prisma, Drizzle, Schema Design & Data Modeling
DevOps & Infrastructure: Docker, CI/CD Pipelines, PM2 Process Management, VPS & Cloud Deployments

Interests: Geo politics, Watching business case studies, Movies and Anime.
